Revolutionizing the circle of care with high quality
Community Health Worker services

Evidence based and outcome driven
Culturally competent, diverse workforce
Compassionate, knowledgeable care

CHW Solutions

"Community Health Worker Services Made Easy"

- ✿ Founded in 2016, CHW Solutions is a women-owned business dedicated to developing sustainable models for Community Health Worker (CHW) Services.
- ✿ We deliver CHW services directly, pairing patients with certificate-holding CHWs to improve health outcomes.
- ✿ Our CHWs build meaningful relationships with patients, providing health education, self-management skill building and community connections at every visit.
- ✿ The CHW Solutions Team provides technical assistance and consulting services to organizations starting or expanding their own CHW teams.
- ✿ We guide your organization in billing insurance for CHW services, or handle your billing for you.
- ✿ To test and refine your approach, we partner with you to incubate and pilot your innovative CHW service ideas.
- ✿ We match our patient's language and culture with our CHWs whenever possible, and engage interpreters when needed.

Our Philosophy

- ✿ CHWs are an important part of patients' circle of care to prevent and manage health issues.
- ✿ CHWs should be well-trained, follow best practices, and be culturally connected to their service community.
- ✿ CHWs help patients by reducing identified risk factors, eliminating barriers to health care, and connecting patients with needed resources.
- ✿ CHWs providing health education and addressing patients' health-related social needs removes obstacles, improves outcomes and reduces costs.
